Behavioural Safety

26 October 2017

Location: IWEA Office, Naas, Co. Kildare

Workshop content

The workshop consists of four key sessions

- Behaviour and health and safety
- Safety leadership
- Performance Management
- Safety coaching

Who should attend

This one day course is aimed at all managers and supervisors, both operational and non-operational. Even those managers with office based roles that are considered far removed from the hazards and risks of the workplace should attend in order to identify their role in supporting the developing their organisation's safety culture.

Outcomes from attending

- Appreciate the challenges of influencing behaviour in the context of health and safety and how to formulate strategies for change within their own *safety improvement plans*
- Recognise the importance of 'doing the simple things well' when it comes to leading on safety
- Establish what constitutes a strong measure for safety and how to use consequences effectively to drive behavioural change
- Identify the key coaching qualities necessary to be an effective influence over others and promote a positive performance culture

Meet your trainer:

John Tucker CMIOSH LBIOH BSc(Hons)

John is the Managing Director for Advanced Risk Management Solutions Ltd. (ARMS Ltd) a business that specialises in the provision of behaviour based solutions for occupational safety and health.

ARMS Ltd has been providing consultancy solutions to a range of industrial sectors since 2005 and has managed large scale safety culture improvement programmes for clients such as Alstom, Amey, Atkins and Balfour Beatty.

ARMS Ltd is comprised of a highly experienced team of specialist consultants who are expert in their fields of psychology, safety, coaching and performance management. John is also a Chartered safety practitioner, a Licentiate of the British Institute of Occupational Hygiene and holds a diploma in Behavioural Science.

He began his career in health and safety as a risk manager with the UK Atomic Weapons Establishment at Aldermaston after graduating from university with a degree in Applied Physics before moving into safety consultancy and specialising in behaviour based risk management since 1997.
